Participation and Engagement: The workshop saw enthusiastic participation from the B.Tech 2nd year Computer Science Engineering students. This workshop was conducted under the guidance of faculty member and lab technician.

Conclusion: The "**Computer Hardware and Network**" workshop was a resounding success, achieving its objective of providing comprehensive training on computer components. The Computer Science Engineering Department received positive feedback from participants. The workshop has undoubtedly enhanced the student's skills and prepare them for future professional challenges in the field of Computer Science Engineering. After attending workshop, students will able to learn:

- Describe Network system
- Discuss the Input and Output Devices
- Explain the concept of Computer Hardware
- Explain the concept of Computer Software

EC dept. Organizing One day workshop program on Computer Networking

On 10/03/2022

About SVCE

Swami Vivekanand College of Engineering came in to being existence in the year 2004 under the auspices of Swami Vivekanand Takniki Sansthan, Indore, to fulfill the demand of an ideal technical institution. Institution aspires to develop itself into a model technical institution of repute under the guidance of a team of experienced and dedicated academicians. As a technical and professional college it is duly approved by the Govt. of Madhya Pradesh and A.I.C.T.E., New Delhi. It is affiliated to R.G.P.V Bhopal & DAVV Indore. The college runs B.Tech. courses in Civil Engg., Mechanical Engg. Computer Science Engg., Electronics & Communication Engg., Information Technology and Electrical & Electronics Engg. The Institute runs P.G. programs in ME,EC,MBA,CSE and EE. The college is spread over 25 acres of land, bestowed upon with a beautiful natural surrounding and an eco friendly atmosphere conducive to all activities of a technical & professional institution.

About the workshop Program

EC dept. of SVCE Indore and NETWORXX proudly presents a comprehensive workshop on Computer Networking. In this interactive and hands-on workshop, you will embark on a journey through the fundamental principles, advanced concepts, and real-world applications of computer networking. Led by experienced instructors, you will explore the intricacies of network architectures, protocols, security measures, and emerging technologies that power the modern internet.

Program Highlights

- Understanding the fundamentals of computer networks, including network architectures and topologies.
- Exploring networking protocols such as TCP/IP, UDP, DNS, DHCP, and HTTP.
- Learning about network devices and their roles, including routers, switches, firewalls, and access points.
- Configuring and troubleshooting network devices and connections.

Who Should Attend

Swami Vivekanand College of Engineering, Indore

EC dept. Organizing One day workshop program on Junkyard

On 08/09/2019

About SVCE

Swami Vivekanand College of Engineering came in to being existence in the year 2004 under the auspices of Swami Vivekanand Takniki Sansthan, Indore, to fulfill the demand of an ideal technical institution. Institution aspires to develop itself into a model technical institution of repute under the guidance of a team of experienced and dedicated academicians. As a technical and professional college it is duly approved by the Govt. of Madhya Pradesh and A.I.C.T.E., New Delhi. It is affiliated to R.G.P.V Bhopal & DAVV Indore. The college runs B.Tech. courses in Civil Engg., Mechanical Engg. Computer Science Engg., Electronics & Communication Engg., Information Technology and Electrical & Electronics Engg. The Institute runs P.G. programs in ME,EC,MBA,CSE and EE. The college is spread over 25 acres of land, bestowed upon with a beautiful natural surrounding and an eco friendly atmosphere conducive to all activities of a technical & professional institution.

About the workshop Program

EC dept. of SVCE Indore proudly presents a comprehensive workshop on Junkyard. Junkyard is a practice to make useful electronics circuits from unused or un-functional circuits. This workshop is designed for individuals interested in learning about electronics circuit design, from fundamental concepts to practical implementation. Participants will gain hands-on experience in designing and simulating circuits using industry-standard software tools.

Program Highlights

- Understanding basic electronic components and their functions.
- Analyzing and designing circuits using circuit simulation software.
- Developing skills in schematic capture and PCB (Printed Circuit Board) layout.
- Learning best practices for circuit testing, troubleshooting, and optimization.

About SVCE

Swami Vivekanand College of Engineering came in to being existence in the year 2004 under the auspices of Swami Vivekanand Takniki Sansthan, Indore, to fulfill the demand of an ideal technical institution. Institution aspires to develop itself into a model technical institution of repute under the guidance of a team of experienced and dedicated academicians. As a technical and professional college it is duly approved by the Govt. of Madhya Pradesh and A.I.C.T.E., New Delhi. It is affiliated to R.G.P.V Bhopal & DAVV Indore. The college runs B.Tech. courses in Civil Engg., Mechanical Engg. Computer Science Engg., Electronics & Communication Engg., Information Technology and Electrical & Electronics Engg. The Institute runs P.G. programs in ME,EC,MBA,CSE and EE. The college is spread over 25 acres of land, bestowed upon with a beautiful natural surrounding and an eco friendly atmosphere conducive to all activities of a technical & professional institution.

About the workshop Program

EC dept. of SVCE Indore proudly presents a comprehensive workshop on Network Simulator -2 (NS-2). NS-2 is a discrete event simulator targeted at networking research. Ns provides substantial support for simulation of TCP, routing, and multicast protocols over wired and wireless networks.

Program Highlights

- Gain practical experience in using NS-2 for network simulation and research.
- Gain Knowledge of routing algorithm
- Gain Knowledge of different protocols
