Policy of Green Audit / Environmental Audit

Introduction

Swami Vivekanand College of Engineering (SVCE), Indore, is committed to fostering a sustainable and environmentally responsible campus. To uphold this commitment, SVCE has established a Green Audit / Environmental Audit policy designed to evaluate and enhance our environmental practices. This policy includes the formation of an internal audit committee and the engagement of an external agency to ensure a thorough and objective assessment.

Objectives

The objectives of the Green Audit / Environmental Audit are:

- To evaluate the environmental impact of the college's operations.
- To identify opportunities for improving sustainability practices.
- To ensure compliance with relevant environmental laws and standards.
- To promote environmental awareness and sustainable behavior among the college community.
- To develop and implement strategies for enhancing the college's environmental performance.

Scope

The Green Audit / Environmental Audit will encompass the following areas:

- **Energy Management:** Evaluation of energy consumption, efficiency measures, and renewable energy practices.

- **Water Management:** Assessment of water usage, conservation efforts, and wastewater management.
- **Waste Management:** Review of waste generation, segregation practices, recycling initiatives, and disposal methods.
- **Green Spaces:** Analysis of campus greenery, plantation efforts, and landscape maintenance.
- **Indoor Environmental Quality:** Examination of air quality, ventilation systems, and use of eco-friendly materials in buildings.
- **Education and Awareness:** Assessment of environmental education and awareness programs.

Audit Process

Formation of Internal Audit Committee

- Establish an internal Audit Committee comprised of representatives from various departments.
- The committee will be responsible for overseeing the audit process, coordinating with the external agency, and ensuring the effective execution of the audit.

Engagement of External Agency

- Hire a qualified external agency with expertise in environmental audits to conduct an independent assessment of the college's environmental practices.
- The external agency will bring an objective perspective and specialized knowledge to the audit process.

Planning

- Develop a comprehensive audit plan detailing the scope, methodology, and schedule, in collaboration with the external agency.

Data Collection

- Conduct site inspections and surveys as guided by the external agency to assess current practices.

Analysis

- Analyze the collected data to evaluate environmental performance and identify areas for improvement.
- Review findings in conjunction with the external agency to ensure accurate and actionable insights.

Responsibilities

Internal Audit Committee

- Oversee the audit process, liaise with the external agency, and ensure effective execution of the audit.
- Facilitate data collection and provide support for implementing audit recommendations.

External Agency

- Conduct an independent and comprehensive audit of the college's environmental practices.
- Provide expert analysis, recommendations, and support for enhancing environmental performance.
