Policy of Disabled-Friendly, Barrier-Free Environment

Introduction

Swami Vivekanand College of Engineering (SVCE) is committed to creating an inclusive and supportive educational environment for all students, including those with physical disabilities. Since its establishment in 2004, SVCE has not registered any physically challenged students. However, recognizing the importance of proactive measures to ensure equal opportunities for all, the college administration has taken significant steps to enhance campus infrastructure, ensuring a disabled-friendly and barrier-free environment.

Objectives

- To provide equal opportunities and access to education for physically challenged students.
- To create an inclusive and supportive campus environment.
- To ensure that all facilities and services are accessible to students with disabilities.

Infrastructure Enhancements

Ramp Ways

SVCE has constructed ramp ways on the ground floor of the campus buildings. These ramps ensure that the campus is accessible to students with physical disabilities, providing them with barrier-free access to essential facilities and services.

Disabled-Friendly Environment

Classroom Allocation

- Physically challenged students will be accommodated in ground floor classrooms to avoid any accessibility issues.
- Additional support will be provided to assist disabled students in reaching their classrooms, ensuring a smooth and hassle-free experience.

Support During Examination

- During examinations, disabled students will be allotted ground floor classrooms to ensure easy accessibility and minimize any potential difficulties.
- Necessary accommodations and support will be provided to facilitate a comfortable examination environment for disabled students.
